CHANGE ORDERS FOR CMH PROJECTS HAVE AVERAGED LESS THAN **0.5% CONSTRUCTION COSTS**

Not only are they excellent designers, but they are easy to work with and practical. They will listen to ideas from others. ~ Mr. M. Miller Gorrie

We believe the keys to successful projects are communication and responsiveness during the entire design and construction process. We focus on understanding the end user's needs and functional requirements, looking at them with a fresh perspective, and take pride in developing an efficient, elegant, project-specific solution. We respect, honor, and manage the budget and schedule. **We create spaces that work.**
